

## UNION MEN TO WAIT ON J. H. McEWEEN TODAY

Committee Will Present Agreement  
Asking Recognition of Organized Labor.

### HIGHER OFFICIALS COMING

Strikers Intimate Washington Will  
Be Notified of Attitude  
of Manager.

J. H. McEween, manager of the McEween Manufacturing company, will be waited upon at 11 o'clock this morning by a committee of three men appointed by the fifty union men of the machine shop of that plant who "walked out" Thursday afternoon. The committee will present to Mr. McEween a union agreement asking that only union men be employed in the plant, according to the leaders in the strike movement.

The strikers declared last night that Mr. McEween had refused earlier in the day to receive a committee from the strikers. "I will not knowingly employ a union man in this plant," he is quoted as saying.

We expect that Mr. McEween will reject the union agreement which we will present to him this morning," said one of the committee last night. "However, it is our desire to play fair and give him an opportunity to line up with the union men of Tulsa."

## FIND BOMB CLUE IN MURDER PLOT

CONTINUED FROM PAGE ONE

sign born person who participated on the side of the rioting element.

Joseph Ivantys, 38, shot three times by a policeman in rioting last night, died in a hospital this morning.

Swift justice was meted out today in the cases of radicals arrested during the riots. Police Judge Howells imposed the severest sentences allowed by law, the first offenders being given two sentences of \$200 and costs and six months each for assaulting a policeman and a citizen.

**Dynamite Sentences**  
KANSAS CITY, May 2.—Eight of the former employees of the Kansas City Railway company indicted by a federal grand jury today on charges of having had dynamite in their possession during the recent strike of railway employees, later entered pleas of guilty before Federal Judge Arba S. Van Valkenburgh, and received jail sentences ranging from four to nine months. The ninth man will be arraigned before Judge Van Valkenburgh next Monday.

## "MICKEY"—THE MAGICAL WORD OF THE MOTION PICTURE WORLD

Never Has a Picture Been Received With Such Unbounded  
Enthusiasm—Following Five Weeks in Kansas City Closing  
Tonight It Opens at the Rialto Tomorrow for One  
Entire Week.

There is a charm about "Mickey" that is said to be indefinable. But the few select who saw it screened at the Rialto late Thursday night had no trouble defining it. "Mickey" is a rare story of a little mountain girl tomboy, that runs every gamut of human emotions; that is a choice mixture of melodrama and comedy such as only Mack Sennett could put together. It is filled with humor, pathos, love and thrilling adventure. It touches all grades of human society, it reveals all passions, good and evil, it depicts every phase of life as it really is—whether it be a California mining camp or among the tinsel, glitter and show of society life in New York.

One who is enraptured as "Mickey" is unworldly and Mabel Normand has made "Mickey" a character that burns itself into one's heart and memory to live forever. Never has Mabel Normand shone with such brilliancy. She is a positive delight from beginning to end. She has immortalized "Mickey" and "Peter Pan" will always be associated with Maude Adams, so will "Mickey" be always associated with Mabel Normand.

This is indeed, a picture that will hang for all time among the masterpieces of the great motion picture hall of fame. It is a great story because it is a simple little idyl of life.

## WILL ENTERTAIN FLYING BOYS

To Be Guests of Reception  
Committee at Second Em-  
press Show Tonight.

The fifty or more members of the Aeroplane squadron that will entertain Tulsa from the flying field this afternoon with aerial maneuvers will be guests of the reception committee at the Empress theater the last show tonight.

The first five rows have been reserved for the fliers, who will be accompanied by members of the reception committee. All who do not get time to go to the field this afternoon will have an opportunity of seeing the entire delegation of aviators at the Empress.

## Three Brothers on Trial for Theft of Automobile in City

The case of the state of Oklahoma against Jesse Smith, Perry W. Smith and R. L. Smith, charged with stealing an automobile from J. H. McEween in this city April 13, in which the testimony of the state and defense was heard Friday by Judge R. C. Maxey, was continued by agreement, until Saturday morning in order to allow the defense an opportunity to secure an additional witness.

Perry Smith and R. L. Smith, in their testimony, stated that they were invited to ride in the car which was then in possession of their younger brother, Jesse Smith, without the knowledge that the automobile had been stolen. Jesse Smith, 18 years old, did not take the witness stand. Judge Maxey will decide the case Saturday morning.

## ALLIES PERFECT PEACE DETAILS

CONTINUED FROM PAGE ONE

man papers for purposes of identification. They take this as an indication that the negotiations are to be conducted on a basis of equality.

And from discussion by the council of three of minor articles of the peace treaty, Friday in peace conference circles in Paris was a quiet day. Late in the afternoon, where the German delegates are awaiting the pleasure of delegates of the allied and associated governments to hand them the terms of peace, there were no extraordinary happenings.

With the controversy between Italy and the council of three still unsettled and the Chinese delegation reported to be disposed to protest against the award of Kiao-Chow to the Japanese, Belgium now is declared to be dissatisfied with the terms of the peace treaty as regards her territorial desires in Germany.

Apparently no great attempts are being made by the council of three to bring about a reconciliation of ideas with the Italian delegates. The French ambassador to Italy, however, has conferred at length with Premier Briand regarding the situation and the development of events in Paris since the Italians quit the French capital and returned to Rome.

## SOCIETY TO RESTORE TRADE WITH AMERICANS

BERLIN, May 2.—The American Merchants' Exchange Interstate company was recently organized in Berlin for the purpose of facilitating the resumption of commercial relations with the United States. The company, which is said to be headed by a number of leading German financiers and industrialists, proposes to carry on an exchange of finished manufactured products for raw materials on an extensive scale. The company sharply criticizes existing measures of the German government which tend to restrict export activities and points out that Germany is in a position to obtain large quantities of foodstuffs and raw materials in return for commodities ready for shipment.

**Asks Heavy Damages**  
Special to The World.  
MUSKOGEE, May 2.—Mrs. Dora Minugh today filed suit for \$25,000 damages against the M. O. & T. railroad as the result of the killing of her husband, W. S. Minugh, an employee of the road, in March of 1918.

## TWO GREAT ORPHEUM ACTS HEADLINE EMPRESS TOMORROW

Albertina Rasch, Unsurpassed Exponent of Classic Dancing,  
and Her Company of Eleven, and Jack Wyatt's Big  
Scotch Act, Make Sunday's Show Brilliant Bill.

Never has the Empress theater offered the people of this city a bill of all vaudeville acts and plays the big vaudeville bill of such extraordinary merit as the new show that begins tomorrow for the next four days.

Two of the biggest Orpheum acts on the vaudeville stage are in this bill, which makes it by far the highest class vaudeville bill Tulsa has ever seen in Tulsa. Albertina Rasch alone is enough to lift this bill far above all others that have played here this season.

Miss Rasch was formerly premier ballerina with the Metropolitan opera company in New York, where she won a reputation as one of the most brilliant artists New York has seen in years.

She was in Tulsa two seasons ago with the famous company of grand opera stars headed by Geraldine Farrer, Cavaleri, Mazore and others. Her entrance into vaudeville at the beginning of the present season was hailed by the New York newspapers as one of the greatest theatrical events in vaudeville stage it has ever received.

Miss Rasch carries a beautiful ballet of ten graceful young women, and her own musical director. She will present a program of ten numbers, and each is lavishly costumed.

Jack Wyatt's Scotch Lads and

## PALACE

Today, Sunday, Monday and Tuesday

Thos. H. Ince presents

CHARLES RAY

in "Greased  
Lightning"

A Paramount Picture

All right, twelve-cylinder  
aristocrat, have your day;  
carry Charles's precious  
girlie away on your soft  
leather cushions. You'll  
reckon up later. And he  
did. For when a gang of  
sharpers beat up the girl's  
father and rob his bank—  
well, just watch Andy and  
"Greased Lightning" then!

In this photoplay Mr. Ray becomes a speed demon  
and the climax of the story sees him in the racer  
of his own make run down the villain who has  
beaten and defrauded the father of the girl he  
loves.

## LARGEST WHEAT CROP EVER GROWN EXPECTED

WASHINGTON, May 2.—Prediction of the department of agriculture for a wheat crop this year even larger than the record-breaking crop of 1914, was reported today by the United States chamber of commerce in a report. The report stated that an acreage never before equaled had been planted and a yield of 500,000,000 bushels was forecast.

Conditions of the winter wheat is so high as to without precedent or parallel. The report said. "It is in fact a monotone of perfection. The plant came through the winter and the trying month of March unscathed and unharmed. In many sections of the west and southwest, it was necessary to pasture it to live, stock to keep down its rank growth. Unless some catastrophic interference the yield will probably be

600,000,000 bushels, or about 23 per cent more than the great harvest of 1914."

One interesting sidelight of the situation reported was that about 25 per cent of the yield would be south of Mason and Dixon's line.
